

# Ruben Heeren

## Full Stack .NET Developer

---

Brecht, Belgium | [rubenheeresume@gmail.com](mailto:rubenheeresume@gmail.com) | [LinkedIn](#) | [GitHub](#)

### SKILLS

**Languages & Software:** C#, Blazor, ASP.NET Core, .NET Core, Entity Framework Core, Microsoft SQL, JavaScript, CSS, SASS, HTML  
**Tools:** Git, Azure, Azure DevOps, Jira, Confluence, Visual Studio, ReSharper  
**Process:** Agile, Scrum, Kanban

### EXPERIENCE

**Software Developer**, Relyon Service Management B.V. Jul 2022 – Present

- Full stack .NET development for field service management software.
- Completed hundreds of Jira tickets regarding bug fixes and features, professionally reviewed by other software developers and QA department.
- Implemented DevExpress scheduler with Day, Week, Workweek and Timeline views, later on replaced the Timeline view with Bryntum Scheduler. Schedule feature is used by 50+ companies daily.
- Implemented VSCode Monaco editor in Blazor Server to allow users to add calculated fields to custom forms. This allows mechanics using the mobile app to enter length and width, for example, and calculate the surface area automatically.
- Built an internal customer management tool that allows the entire company to easily see customers and their live environments, and enables administrators to perform customer management tasks.
- Sped up and simplified weekly release process with an improved Azure DevOps pipeline, saving ~4 developer hours per work week and greatly reduced context switching during release days.

**WordPress development and Content Creation**, self-employed Jan 2019 – Jul 2022

- Built and hosted WordPress websites for small businesses.
- Created a [Blazor course on Udemy](#) that sold more than 1000 copies.

### EDUCATION
